GOVERNMENT 5-STAR SAFETY RATINGS

Overall Vehicle Score

Not Rated

Based on the combined ratings of frontal, side and rollover. Should ONLY be compared to other vehicles of similar size and weight.

|                                                                                                                        |                      |           |
|------------------------------------------------------------------------------------------------------------------------|----------------------|-----------|
| Frontal Crash                                                                                                          | Driver Passenger     | Not Rated |
| Based on the risk of injury in a frontal impact. Should ONLY be compared to other vehicles of similar size and weight. |                      |           |
| Side Crash                                                                                                             | Front seat Rear seat | Not Rated |
| Based on the risk of injury in a side impact.                                                                          |                      |           |
| Rollover                                                                                                               |                      | ★★★★      |
| Based on the risk of rollover in a single-vehicle crash.                                                               |                      |           |

Star ratings range from 1 to 5 stars ( ★★★★★ ) with 5 being the highest.

Best

This vehicle emits 0 grams CO<sub>2</sub> per mile. The best emits 0 grams per mile (tailpipe only). Does not include emissions from generating electricity; learn more at fueleconomy.gov.

Annual fuel cost

\$750

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$0.17 per kW-hr. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
